GN

Good afternoon,

There will be a meeting to discuss the Rogers communication Tower in Bearspaw. Rogers has requested a new tower be built close to the corner of Woodland Road and 1A Hwy. Apparently the county has not had an application so far, so this meeting may encourage the Rogers consultant to look elsewhere.

This location does not sit well with many people and they have asked me to make some arrangements to meet and discuss. The Rogers consultant firm has politely refused to hold an open house.

The open house will be held on Tuesday, September 17, starting at 7:00pm sharp. The county reeve, Greg Boelke, has indicated that he would like to attend as well as a partial commitment from the county CAO. The Magnet sign will go up on Friday sometime on Woodland Road. Our local Councillor has a "We are Censored Tour" next week, so she will not be attending.

This will not be a meeting with discussion boards or anything fancy. Just some background, your comments and some suggestions for going forward.

I am not sure who the chair of the meeting will be, nor who will be taking notes. A good turnout would indicate community interest in this project.

That hat will be passed around.

Thanks

Gerry Neustaedter, B Comm.
